QUESTÕES PRF (INGLÊS)

across the United States.
There are other states, like Florida, that produce energy on a level similar to that of Texas.

Essa questão está errada

level similar to that of Texas.
There are places in the world where wind power works well in freezing temperatures.

Essa questão está correta

in freezing temperatures.
In "Natural gas and coal-fired power plants need water to stay online. Yet those water facilities froze in the cold temperatures and others lost access to the electricity they require to operate", it is possible to substitute "Yet" for **Even** so without changing the meaning of the sentence.

Essa questão está correta

so without changing the meaning of the sentence.
The text points to the lack of wind as the primary cause for a dip in the production of wind energy during the period described.
