### World Energy Outlook 2021

- In 2020, even while economies bent under the weight of Covid-19 lockdowns, renewable sources of energy such as wind and solar PV continued to grow rapidly, and electric vehicles set new sales records. The new energy economy will be more
- 5 electrified, efficient, interconnected and clean. Its emergence is the product of a virtuous circle of policy action and technology innovation, and its momentum is now sustained by lower costs. In most markets, solar PV or wind now represents the cheapest available source of new electricity generation.
- o Clean energy technology is becoming a major new area for investment and employment – and a dynamic arena for international collaboration and competition.

“Even while” in “*In 2020, even while economies bent under the weight of Covid-19 lockdowns*” (opening sentence) indicates the text will show that two situations are

- (A) confining.
- (B) conclusive.
- (C) convincing.
- (D) conditional.
- (E) concomitant.

“Despite” in “Despite young people around the world being more educated” can be replaced without change in meaning by

- (A) since.
- (B) besides.
- (C) altogether.
- (D) throughout.
- (E) notwithstanding.
